The image features a dark blue gradient background. In the corners, there are decorative white line art elements resembling circuit boards or neural networks, with lines and small circles connecting them.

GET

The image features a dark blue gradient background. In the corners, there are decorative white line art elements resembling circuit boards or neural network connections. These elements consist of thin lines that branch out and terminate in small circles, creating a symmetrical, abstract pattern in each corner.

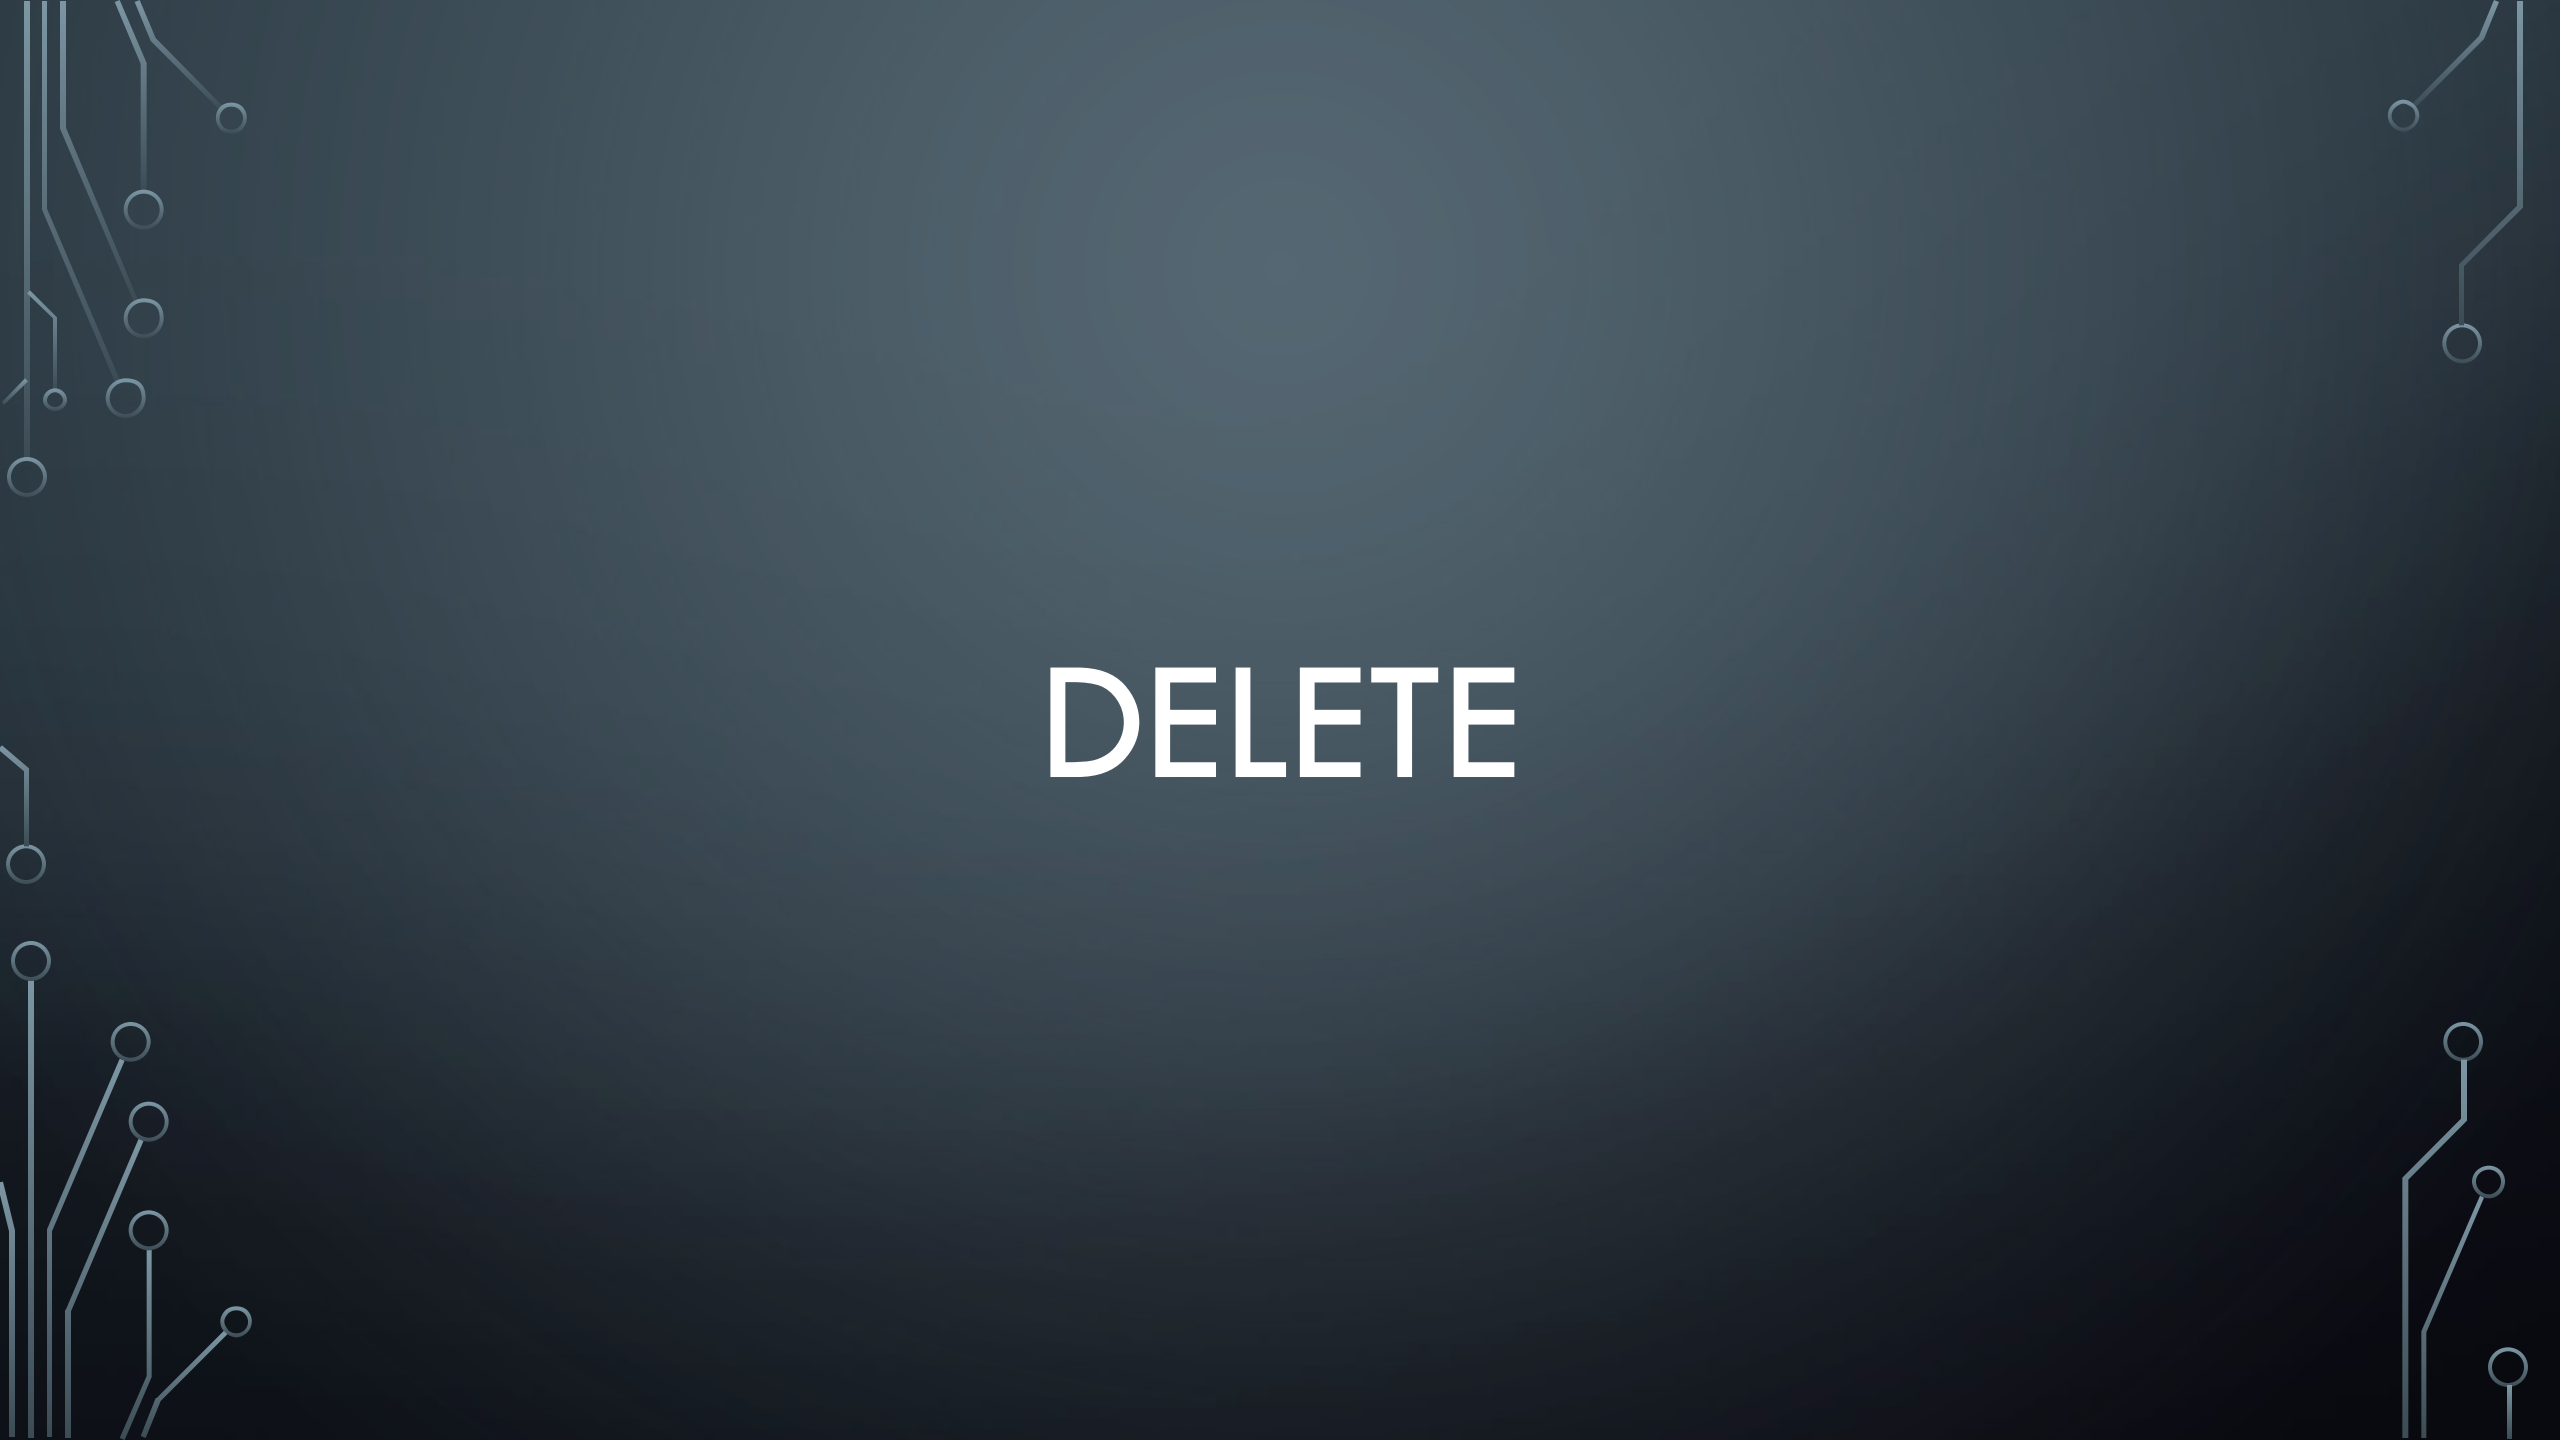

HEAD

The image features a dark blue gradient background. In the corners, there are decorative white line art elements resembling circuit boards or neural networks, with lines and small circles connecting them.

POST

The image features a dark blue gradient background. In the corners, there are decorative white line art elements resembling circuit boards or neural network connections. These elements consist of thin lines that branch out and terminate in small circles, creating a symmetrical, abstract pattern in each corner.

PUT

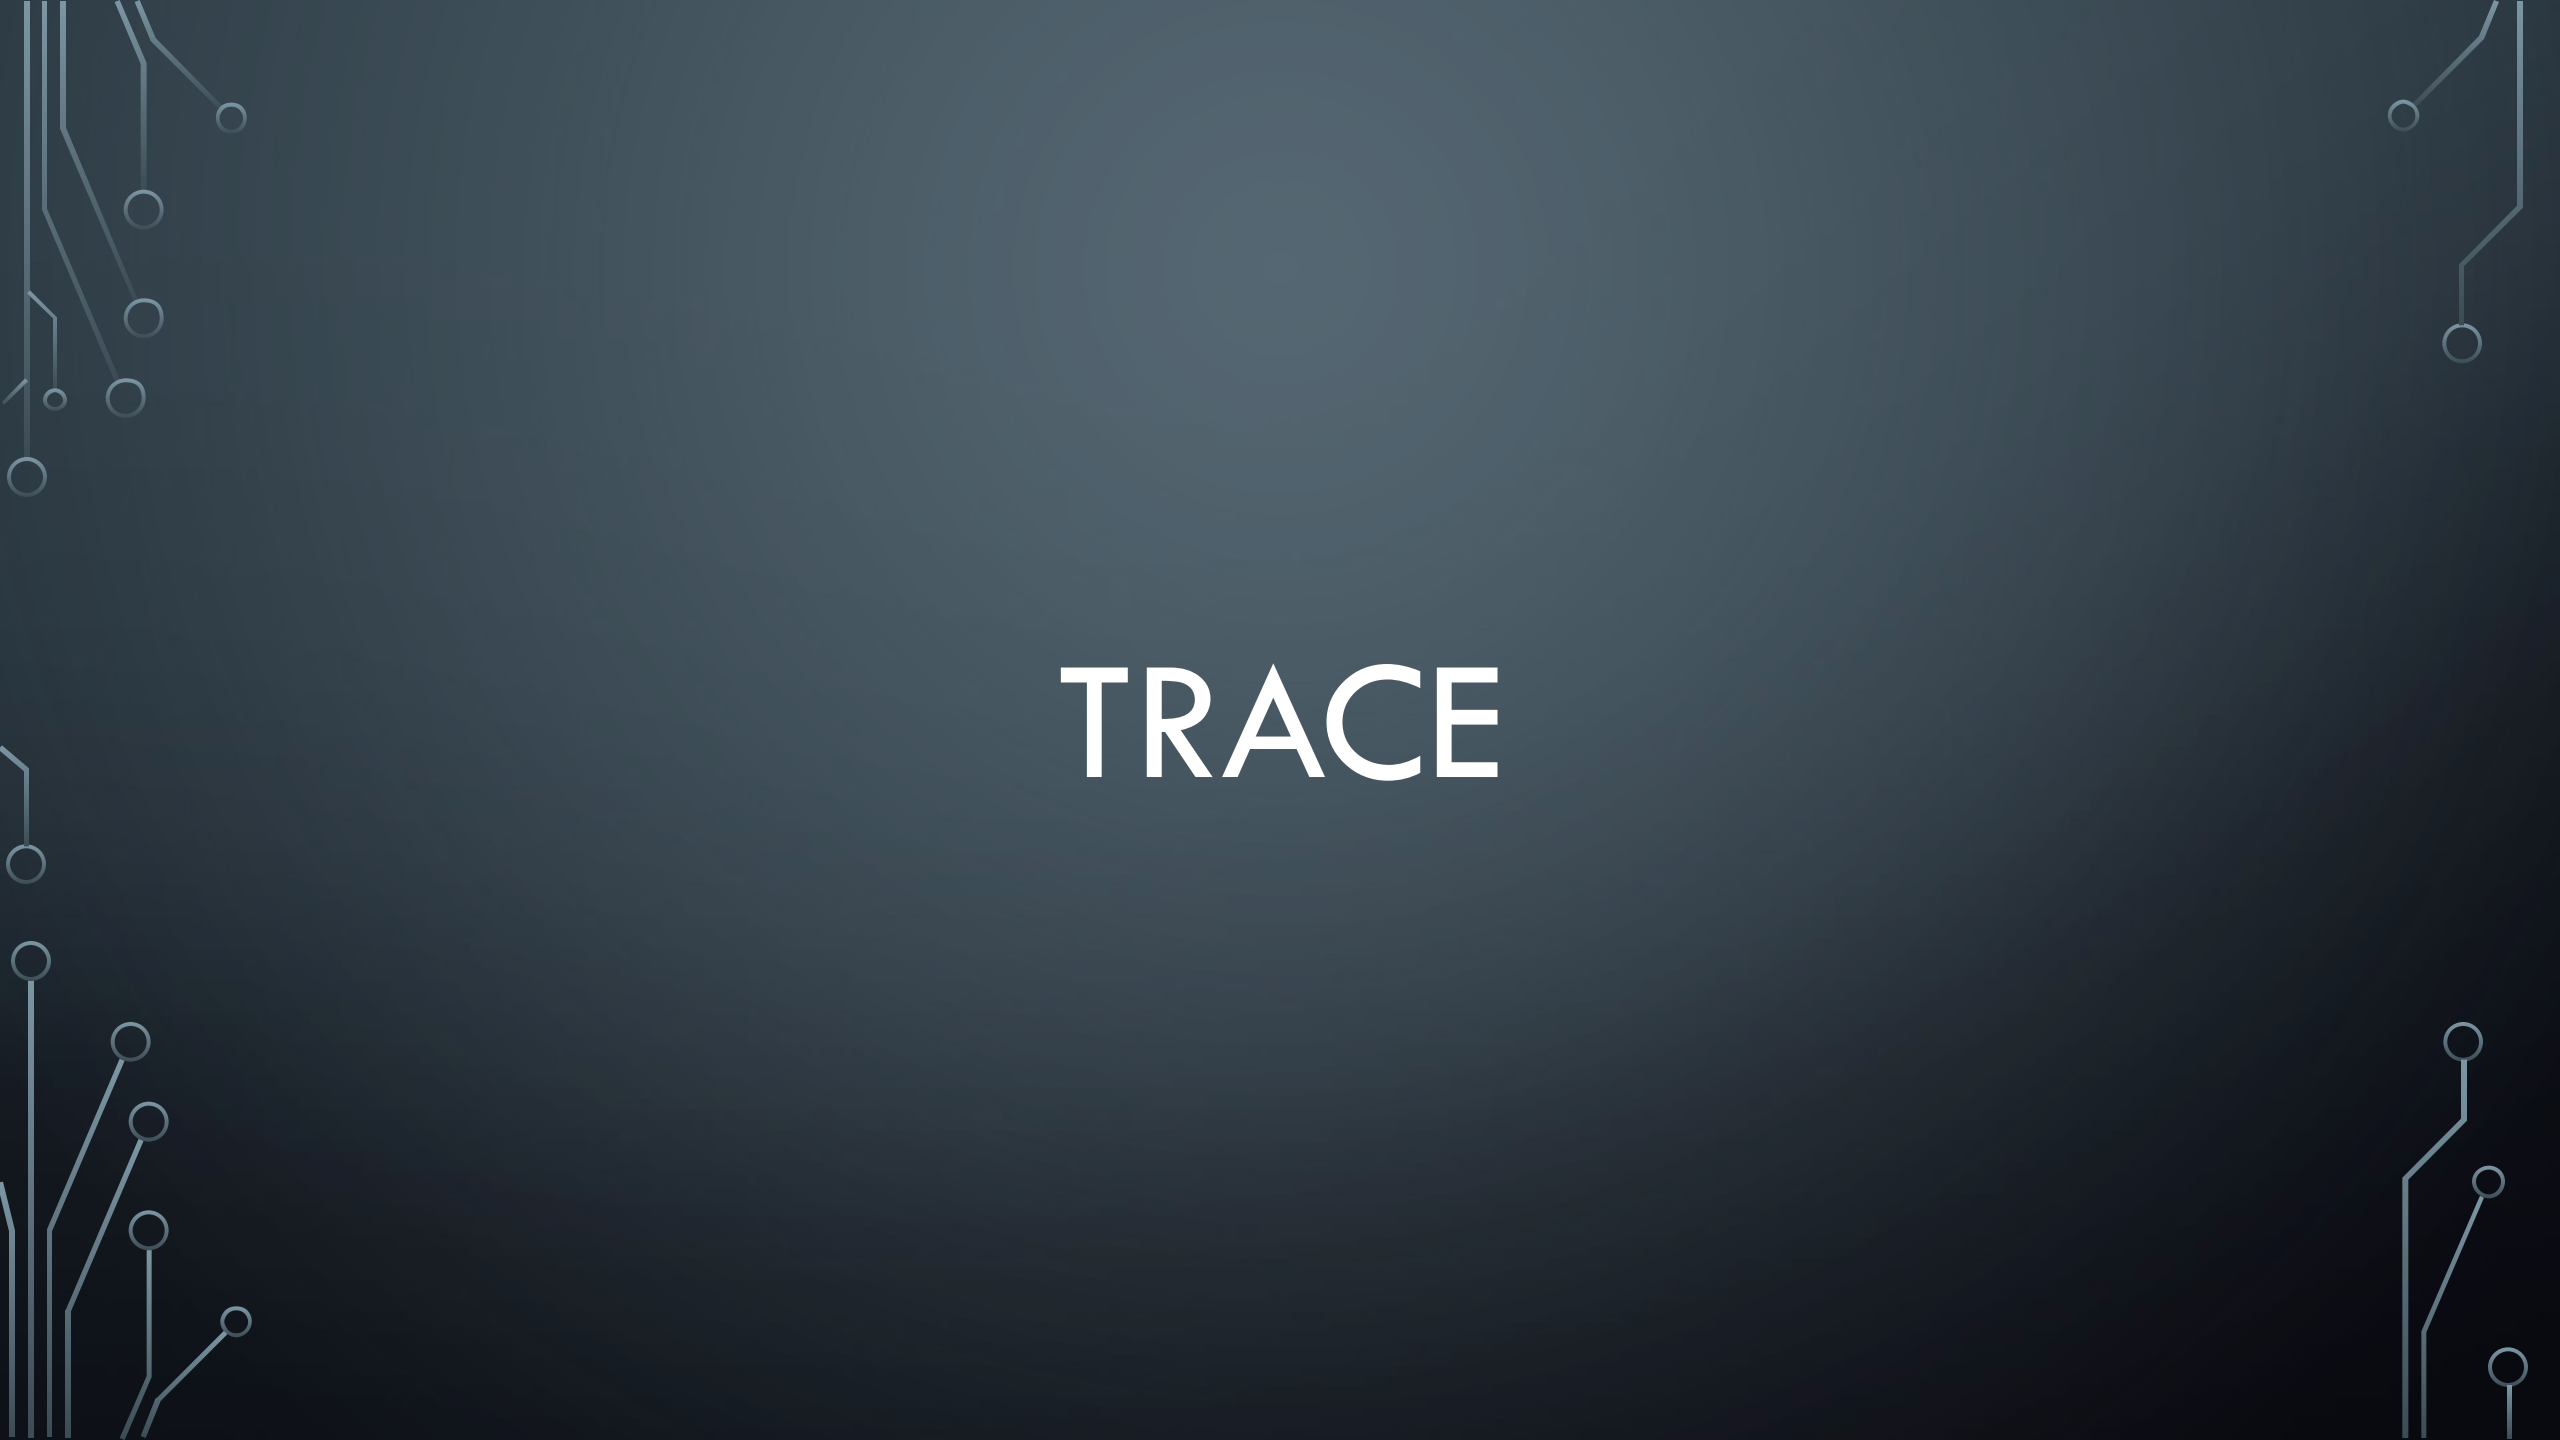

The image features a dark blue gradient background. In the corners, there are decorative white line art elements resembling circuit boards or neural networks, with lines and small circles connecting them.

DELETE

The image features a dark blue gradient background. In the corners, there are decorative white line art elements resembling circuit boards or neural networks, with lines and small circles connecting them.

CONNECT

OPTIONS

The background is a dark blue gradient. In the corners, there are white, stylized circuit-like lines. These lines consist of straight segments and small circles, resembling a network or a circuit board layout. They are positioned in the top-left, top-right, bottom-left, and bottom-right corners, framing the central text.
